Remarks:

The attestation of conformity is issued under the precondition that the starting materials used to manufacture the products and/or their composition and/or components, including their manufacturers and supply chain, have been disclosed in full and the product does not contain any further substances. This document shall be invalid in cases of changes to the composition of the product or the processing conditions that have not been agreed upon with the certification body.

The findings of our tests and the evaluations apply for the test objects examined and the provisions of the law applicable at the time of testing. Without our express written approval, it is only permitted to publish or reproduce this document in full and unedited.
